The Blakiston's fish owl is a massive bird, with a wingspan of up to 6 feet. It is found in the forests of Russia, China, and Japan, and its diet consists primarily of fish. The owl is threatened by habitat loss, hunting, and pollution.

In 2016, a team of conservationists from the Wildlife Conservation Society (WCS) launched a project to find and save the Blakiston's fish owl. The team is working in the Russian Far East, where the owl is thought to be most numerous.

The team is using a variety of techniques to find the owls, including camera traps, acoustic surveys, and interviews with local people. The team is also working to protect the owls' habitat and reduce the threats they face.

The Blakiston's fish owl is a magnificent bird, and it is an important part of the ecosystem. The WCS team is working hard to save this bird from extinction, and they need our support.

How You Can Help

There are a number of ways you can help the WCS team save the Blakiston's fish owl:

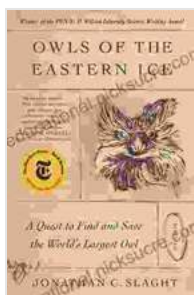

- **Donate to the WCS.** Your donation will help the team continue their work to find and save the Blakiston's fish owl.
- **Spread the word.** Tell your friends and family about the Blakiston's fish owl and the WCS project to save it.
- **Reduce your environmental impact.** Take steps to reduce your impact on the environment, such as driving less, using less energy, and recycling more.
- **Protect the Blakiston's fish owl.** If you see a Blakiston's fish owl, please don't disturb it. Report the sighting to the WCS team so they can track the owl's movements and protect it.

The Team

The WCS team working to save the Blakiston's fish owl is led by Dr. Peter Zahler. Dr. Zahler has been working with the Blakiston's fish owl for over 20 years, and he is one of the world's leading experts on the bird.

The team also includes Dr. Sergei Poyarkov, Dr. Naomi Rose, and Dr. Olga Perlova. Dr. Poyarkov is a Russian ornithologist who has been studying the Blakiston's fish owl for over 30 years. Dr. Rose is a conservation biologist who has worked with the WCS for over 10 years. Dr. Perlova is a veterinarian who has worked with the WCS for over 5 years.

The team is working hard to save the Blakiston's fish owl, and they need our support. Please donate to the WCS, spread the word about the project, and reduce your environmental impact. Together, we can save the Blakiston's fish owl.
